Next Generation Deep Tissue Revitalizer 2.0

Revite® PDRN GOLD

Needle Size: 27G

Package: 1 x 2.5mL

Maintenance Duration: 6 months

Composition: 3.5% High and Low Molecular Weight Hyaluronic Acid, 7 Amino Acids (Glycine, L-Proline, L-Leucine, L-Lysine HCL, L-Alanine, L-Valine, L-Arginine HCL), 3 Peptides (ACETYL DECA-PEPTIDE 3, OLIGOPEPTIDE 24, ACETYL TETRAPEPTIDE 5) and PDRN.

Indication:

PDRN Gold is an enhanced skin booster designed to improve skin hydration, elasticity, and stimulate collagen production for a youthful, radiant complexion.

Every Face
Dares to Shine!

Dual Molecular - Deep Hydration

High and Low Molecular Weight Hyaluronic Acid 3.5%

High Molecular Weight Hyaluronic Acid (900-1000 kDa):

Builds the skin's foundation by forming a gel-like bond of hyaluronic acid, protein, and water, effectively locking in moisture.

Low Molecular Weight Hyaluronic Acid (230-350 kDa):

Penetrates quickly to replenish the extracellular matrix and enhance fibroblast activity, delivering deep hydration.

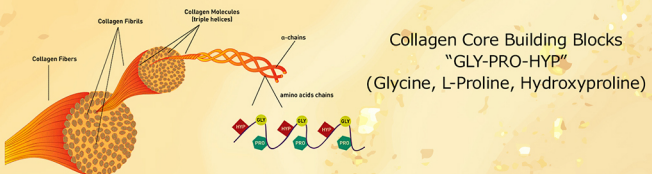

7 Amino Acids Complex

Glycine, L-Proline, L-Leucine, L-Lysine HCL, L-Alanine, L-Valine, L-Arginine HCL

- Support Tissue Repair and Regeneration.
- Enhance Blood Circulation.
- Boost Collagen and Elastin Production.
- Reduce Inflammation and Oxidative Stress.
- Improve Skin Hydration and Moisture.

Why Amino Acids Effects?

Amino acids are the basic units of proteins.

3 Peptides

Strengthening the Skin's Foundation

Acetyl Decapeptide 3

Helps in smoothing out fine lines and wrinkles, particularly those caused by facial expressions, leading to a more youthful appearance.

Oligopeptide 24

Enhances collagen & elastic production, improves skin firmness and elasticity, and aids in the repair of damaged skin tissue.

Acetyl Tetrapeptide 5

Reduces inflammation and puffiness, minimizes the appearance of dark circles, and promotes skin repair and rejuvenation.

Extra Golden Composition - PDRN

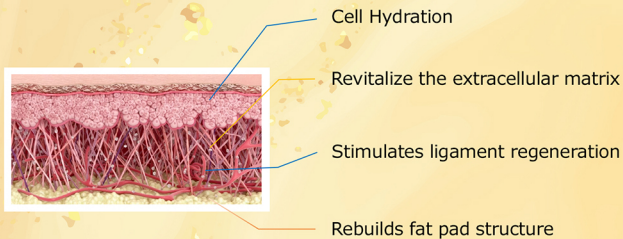

Promoting Cellular Repair & Regeneration

With biosynthesis action in skin tissues(epidermis, dermis) of PDRN which is a regenerative activity material of cell tissue, it recovers and maintains elasticity and health of skin.

Mechanism of Action (MOA):

Delivers Multi-level Skin Rejuvenation
